## Outsourced Credit Control

---

The effective management of credit control is paramount to the financial well-being of any organization, as it mitigates delays in payment receipt and optimizes cash flow. However, not all businesses have the necessary time, resources, or expertise to efficiently handle credit management. In such instances, outsourcing credit management can be a more cost-effective and efficient solution.

At Corporate Debt Recovery, our discreet credit control service assumes the responsibility for this critical function, allowing you to focus on your core business operations with the assurance that your credit management is in the capable hands of experts.

## Debtor Tracing Service

---

The process of locating businesses that are indebted to you and have become unreachable is known as debtor tracing. At Corporate Debt Recovery, we offer a debtor tracing service to assist you in locating outstanding debts.

It is understandable that companies and organizations may attempt to retain their funds for as long as possible, which can sometimes result in challenges in collecting payments. We have encountered various reasons for late payment of invoices, including waiting for customer payments, cheques in the post, or the absence of an invoice.

When all other options have been exhausted, it may be necessary to engage the services of Corporate Debt Recovery's debtor tracing agents.

## Debt Purchase

---

Acquiring non-paying customer accounts can sometimes result in expenses surpassing the account's value.

Corporate Debt Recovery offers to purchase the debt at a percentage of its original value, taking into account factors such as the number of accounts, their age and balances, and any previously collected funds.

We provide prompt payment and subsequently pursue the individual customer for payment.

## Credit Checking

As a CreditSafe partner, we provide comprehensive business credit checks for any company in the UK or Ireland. Our reports offer valuable insights and information to aid your decision-making process.

## Business Debt Dispute Resolution

As an impartial third-party mediator, we provide Business Debt Dispute Resolution services. We collaborate with both parties to facilitate negotiations, reach a mutually beneficial agreement, or, if necessary, narrow down the areas of disagreement.

Our team is dedicated to comprehending the underlying issues and finding a fair resolution that satisfies all parties involved.
